Hiring Team
Cascade Robotics
400 Pine Street
Seattle, WA 98101

Dear Hiring Manager,

I am writing to apply for the Senior Backend Engineer position at Cascade Robotics. Over the past five years I have built and operated distributed systems that move real goods, and I would love to bring that experience to your fleet platform.

At Northwind Labs I led the migration of our billing pipeline to event sourcing. The project cut reconciliation errors by 80% and taught me how to change a system that cannot stop running.

I would welcome the chance to talk about how I could contribute to your team. Thank you for your time and consideration.

Sincerely,

Samuel Okafor
